**Announcement of Discontinuation about Programmable Controller
MICREX-SX Series CPU Module SPH2000**

Thank you for using our Fuji programmable controllers.
We hereby announce that we will discontinue CPU Module SPH2000 in MICREX-SX Series SPH. We apologize for any inconvenience this may cause and appreciate your kind understanding.

1. Products to be Discontinued

Product Name	Products to be Discontinued (SPH2000) *1*2		Replacement Products (SPH3300/SPH2200) *3	
	Model	Program Memory	Model	Program Memory
CPU Module	NP1PM-48R	48K step	NP1PM-048RN	48K step
	NP1PM-48E	48K step	NP1PM-048EN	48K step
	NP1PM-256E	256K step	NP1PU-256EN	256K step

- *1 The products made for specific customers are also discontinued.
- *2 We will continue to produce the SPH2000H (NP1PM-256H) and its special specification models.
- *3 We have prepared a "Model transition tool" that allows you to easily convert existing user programs to replacement products. "Model transition tool" is supported with Expert(D300win) V3.7.4 or later version, Standard V3.1.3 or later version.

2. Schedule

Announcement of discontinuation : October 2025 (This report)
Last order : September 30th, 2026
Date of discontinuation : March 31st, 2027

3. Reason for Discontinuation

We have already released CPU module SPH3300 and SPH2200 that are replacement model for SPH2000 in August 2024.

4. Repair Period

We will provide repair service for 7 years after the discontinuation date. However, we may not accept repair before this period because of availability of electric parts.
